The following is an examiner's statement of reasons for allowance: Upon reconsideration, the examiner accepts applicant's argument that the evidence of record does not support the examiner's assertion that one of ordinary skill in the art would have used the high acid value of greater than or equal to 100 well known in general in the aqueous coating art in the particular environment of temporary protective coatings on polymeric optical elements required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
